Country House in Rural Location. Country house in a rural location with magnificent views. This country house is set in the hills above Petrer and benefits from amazing views of the valley and hills, most being national park status. The house is accessed from a tarmac road only 5 minutes drive from Petrer with all the shops and amenities, plus the A31 motorway means you can arrive in Alicante city or airport in 30 minutes. The house is set on the hill and is the last one, so nothing can be built behind it. You enter via a driveway with an electric gate, to the parking area and covered car port. There are several outbuildings and a large garage (being used as a workshop now). The land is terraced on 3 levels and has easy access from each level. You enter via a large glazed terrace with windows that open to the front...
