A sustainable renovation project in the beating heart of Alicante, one of the most vibrant and beautiful cities on the Mediterranean coast. We present eight new apartments, with the aim of satisfying the growing demands of the real estate market and contribute to the sustainable urban development of the city. Great central location. Located in a privileged Carolinas Altas neighborhood, the position offers a great opportunity to revitalize a space with great potential. The developer's team of architects and designers formed a comprehensive plan that fuses the beauty of classic architecture with modern comforts, creating a unique residential experience.
