Fabulous New Build Abanilla & Canada del Trigo. Do you know the phenomenon of neo-ruralism? It is the migration movement of the current society towards less populated areas in search of free environments, quiet and with a lower level of pollution. Zulum's Houses selects the most attractive places in Spain to develop urban projects that meet the new requirements that the new society needs. This project has the construction of 5 Family homes. El Partidor, located in Abanilla in the Region of Murcia, is located at just 5 minutes from the village with all services (shops, health, security, educational centers among others). In addition, the homes are found in a natural environment as just a few minutes from the Chicamo River for leisure and tourism.
