We are very pleased to bring to the market this rare opportunity to purchase a South facing, top floor front line apartment with stunning sea views. The property also comes with an allocated underground garage space. The apartment has two bright bedrooms with built in wardrobes, both with sea views, and a family shower room also with sea views. There is a fully fitted american kitchen that leads into a bright lounge diner with great sea views and air conditioning, from the lounge you can access the good size balcony with magnificent uninterrupted sea views. The property is located in the sort after area of Mar Azul Torrevieja, so it is walking distance to many amenities. The building also has an all important lift. If you are looking for a front line south facing top floor apartment this is the one for you.
